**Public Notice Of Proposed Action**

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes. The Administrator has received a complete permit application for renewal of Water Pollution Control Discharge Permit NEV98005 from the following applicant:

City of Las Vegas  
Durango Hills Water Resource Center  
(formerly Northwest Water Resource Center)  
Northwest Corner of Cheyenne Avenue and Durango Drive  
6005 East Vegas Valley Drive  
Las Vegas, NV 89142

The applicant operates a domestic wastewater treatment and reclamation plant that provides effluent to the Las Vegas Valley Water District (LVVWD) for irrigation reuse. The effluent meets secondary treatment standards, is disinfected using ultra-violet light, and is suitable for irrigation of golf courses, and parks, as detailed in Nevada Administrative Code (NAC) 445A.277. The treated effluent will be discharged to groundwaters of the State by land application to golf courses, parks, and schools in the Las Vegas Valley. The effluent discharge limits are consistent with protecting ground waters of the State. The permit, as proposed, will cover a five year period.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes (NRS), and implementing regulations, the Administrator proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions.

Persons wishing to comment on or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication, hand-delivered or postmarked no later than **5:00 P.M. on December 8, 2005**, either in person or by mail to:
